

Executive Summary

GreenBrilliance is established with the mission to provide solar energy solutions in the DC metro area. GreenBrilliance is a vertically integrated; end-to-end Solar Energy Services Company headquartered in the DC metro area delivering turnkey solar EPC solutions to homes, businesses and utility large scale projects at very competitive prices.

Vertical Integrator and Turnkey Services Provider

As a top-quality EPC provider, we have in-house engineering and design teams, our vertical integration across the value-chain enables us to achieve operational efficiencies leading to cost and time savings for our customers and ensures delivery of superior products at an unmatched value. At GreenBrilliance we realize and appreciate the significance of our role in educating and delivering PV systems to our customers. "An educated customer is the best customer." We believe in excellent customer service both pre-and post-installation. We are a leading provider of turnkey EPC solutions for residential, commercial, and utility scale (MW) size power plants worldwide.

All systems installed and delivered by GreenBrilliance are currently producing at or above the systems estimated output. The estimated energy output is calculated by our engineering team and is customized for each site taking into account specific variables such as the solar azimuth, shade analysis, and tilt of the roof which are then factored in with rest of the efficiency factors of solar modules and chosen inverters. **GreenBrilliance recently ranked 33rd in the top hundred installer in the world by the list published by renowned solar world online** with a fantastic portfolio including the prestigious "Ronald Reagan International Airport" in Washington DC.
